---

Brian,

This is the Reporting Requirements Letter sent to the Services to satisfy the annual reporting requirements as stated in the Biological Opinions received for Rozol and Kaput-D Prairie Dog Bait for the control of black-tailed prairie dogs. This Letter to the Services contains incident information. We probably need to check this for CBI.

The link to the assessment for Rozol (chlorophacinone) Prairie Dog Bait (EPA Reg. No 7173-286) for the control of black-tailed prairie dogs is:

<http://www.epa.gov/espp/litstatus/effects/index.htm#chlorophacinone>

The links for the CRLF and SFBay assessments can be found here:

<http://www.epa.gov/espp/litstatus/effects/redleg-frog/index.html>

Not sure if they need this information or not. I will keep looking to see if I have anything else that might be responsive.

Melissa

**Subject:** Anticoagulants Reporting Requirements Memorandum

Nancy, Scott, and Keith,

Attached is the memorandum to satisfy the annual reporting requirements as stated in the Biological Opinions received for Rozol and Kaput-D Prairie Dog Bait for the control of black-tailed prairie dogs. A hard copy will be mailed to each of you as well. Please let us know if you have any questions.

Thank you,  
Melissa
